Warning: Changes or modifications to this unit not expressly approved for the party responsible for compliance will void the warranty and assume all liability.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If it is determined that this equipment does cause interference to radio or television reception, it can be corrected by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Do not use an extension cord with a maximum one amp.

FCC INFORMATION
FCC ID: ZAEFH-SSRC001
ZAEFH-SSRC001A

This device complies with Part 15 of
the FCC Rules. Operation is subject to
the following two conditions: (1) This
device may not cause harmful
interference, and (2) this device must
accept any interference received.

FCC RF Radiation Exposure Statement
Caution: To maintain compliance with
the FCC's RF exposure guidelines,
place the product at least 20cm from
neighboring persons.
